

244 VET. SCIENCE 1, FROM AIREDALES TO ZEBRAS

Project Description

This is the first in a series of three veterinary science projects to help you learn all about animals. Complete a variety of activities to learn about animals' basic needs, the purpose of body systems, how to improve biosecurity in your home or farm, and identifying common veterinary tools.

To Complete the Project

1. Set your goals and record project highlights.
2. Complete the "Whaddya Know" survey before and after you do the activities in this book.
3. Do at least 7 of the From Airedales to Zebras and "Booster Shots" activities each year.
4. Practice and develop life skills under Project Guidelines on page 2.
5. Take part in 4-H project judging. If you choose not to participate in judging, plan to discuss and review completion of your project with your 4-H Advisor.

Judging of this Project

Interview judging for this project will be on Non-Livestock judging day at the Jr. Fair building. Please refer to the 4-H calendar for judging dates.

*Requirements for Judging:

1. Completed project book.
2. Display of something learned in the project.

Project Display

Prepare a display that shows the judge and fair visitors what you learned and accomplished in your project. For example: objects used or created, experiments performed, visuals and other items used to complete project book activities, or a poster showing project activities and results.

Your project book cannot serve as your project display.

Display Areas

At the Wood County Fair, your 4-H project will be displayed in the Wood County Jr. Fair building in your 4-H Club assigned booth.

Project Pick-Up

You must pick up your project display at the end of the fair or arrange for someone to get it for you. Please refer to the Wood County Fair book or the 4-H Newsletter for project release times. Projects not picked up by 3:00 p.m. on the last day of the fair will be disposed of.
